

# STEEL BUMPER 01

The Alapont steel bumper consists of a 12 mm steel plate surface that inside contains 2 rubber stops, independent of each other, thereby giving maximum stability and safety at the moment of contact with the HGV.

12 mm steel plate

2 independent rubber stops

Ready to be welded or bolted

Rustproofing and cold galvanised.

## BUMPER SQUARE 02

The Alapont square rubber stop consists of a rear support of galvanised steel and a surface of tough black rubber.

Dimensions: 250 x 250 x 100 mm
REF: 01010101050
Ready to be welded or bolted
Rustproofing and cold galvanised.

## BUMPER RUBBER 03

The Alapont rubber stop is highly resistant. This is the classic and most commonly used HGV stop in basic standard installations.

Dimensions: 500 x 80 x 80 mm
REF: 0101A0101027
Ready to be welded or bolted
